

Ferny Lane Theatre Stage - Norfolk Island

NOT TO SCALE

Performance area is 10m wide at front and 8m wide at back of stage. Depth is 4.85 metres.

Internal passage behind stage is 2.8 metres wide and full width of building.

Wings are approximately .86m wide at front of stage and 1.8m wide stage right and 2.2m wide stage left.

Flats stage right are 2.2m high. They are fixed but are removable to allow props to be brought onto the stage.

The flat stage left is 2m high. It is fixed and contains a functional door. There are two other entrances one DSL (fairly narrow) and one USL.

The stage is 38cm from the auditorium floor.

Across the rear wall of the stage there are strong timber battens to which backdrops, drapes, etc., may be attached. One is 2.2m from stage and one is 3m from stage.

The stage is bare with black back curtains. It is carpeted.
